No Claims have been amended to overcome prior art and no new matter has been added through these amendments.

Also through the present communication, the specification has been amended to include support for the limitation in Claim 2 that the REY zeolite is present in an amount of about 2 –10 wt.%. Support for this amendment can be found in original Claim 2. No new matter has been added through this amendment.

CLAIM OBJECTIONS

Claims 5-9 have been objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim cannot depend from any other multiple dependent claim.

APPLICANTS' POSITION

Applicants have amended claims 5, 6, and 8 to correct the dependencies. These claims no longer represent multiple dependent claims depending from other multiple dependent claims. The examiner is requested to reconsider and withdraw this objection.

Based on the preceding amendments and remarks, the Examiner is requested to reconsider and withdraw all objections, and pass this application to allowance. The Examiner is encouraged to contact applicants' attorney should the Examiner wish to discuss this application further.

Respectfully submitted,
